

KEEP IT FLOWING

7300 Acid Neutralizer

The **7300 Series** removes Acidity from your water by neutralizing free Carbon Dioxide. Saving you money by stopping corrosion in your plumbing which over time can result in costly repairs or replacement of plumbing, fixtures and valuable appliances. Regular automatic backwashing provides superior water quality, neutralizing the acid to normal pH levels. Which leaves your water sparkling clean and tasting great.

FEATURES:

- Standard Warranty
- Polyglass Mineral Tank
- User Friendly Electronic Control Valve
- High Flow Distribution System
- Standard Bypass Valve allows for ease of installation and service

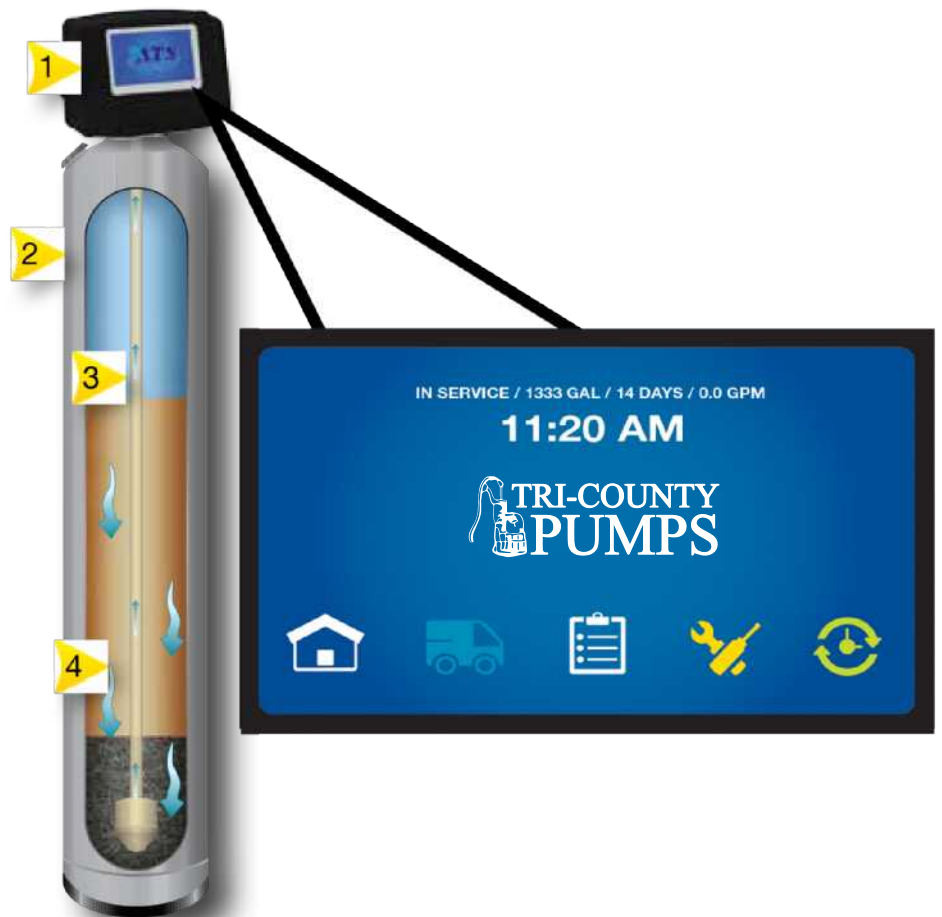

Acid Neutralizers - 7300 Series
