

KEEP IT FLOWING

7300 Air Educator

The **7300 Residential Pro Touch Series**, is our most innovative and efficient design. The contemporary touch screen reduces installation errors and easily allows the ability to monitor daily water savings. Our USA manufactured products make the highest quality water available for your family.

FEATURES:

- Intuitive Modern Pro Touch Control Valve
 - WQA certified to meet NSF/ANSI Standards
- High-Quality Ion Exchange Resin
 - High Capacity
 - WQA certified to meet NSF/ANSI
- Polished Fiberglass Tanks
- Versatile Meter Initiated Regeneration Cycle Sequences
- Top Mounted Valves with Optional Side Mount
- Unique Touch Alternate Cycle Sequencing
- Valve Error Log and Effortless Diagnostics
- Manufactured in the USA

Air Eductors - 7300 Series

Model#	Mineral Tank Size	Cubic Feet	Service Flow	Backwash Rate	Pipe Size	Max Pressure
AFE7300-2E	10" X 54"	1.5	5 GPM	5 GPM	1"	125 PSI
AFE7300-4E	13" X 54"	2.3	7 GPM	10 GPM	1"	125 PSI

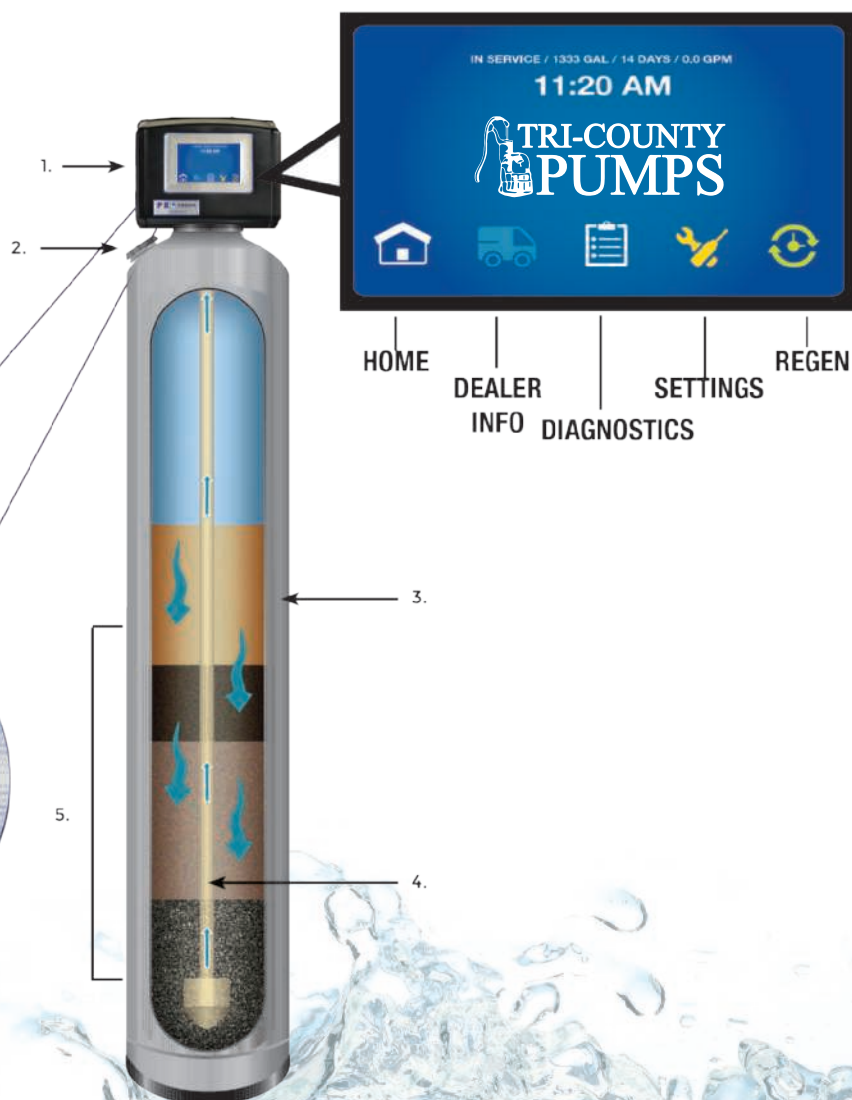

Air Eductors - Media Selection

Model#	Standard Media	Oxidation System	pH	Sulfur	Iron	Turbidity
AFE7300-2E	MB775	Eductor	6.2-8.5	10 ppm	10 ppm	120 NTU
AFE7300-4E	MB775	Eductor	6.2-8.5	10 ppm	10 ppm	120 NTU

Parts Breakdown:

1. 7300 Pro Touch Control Valve
Intuitive touchscreen valve
2. Fill Hole
For easy adding of media
3. Polyglass Mineral Tank
4. High Flow Distributor
5. MB775

The check valve with stainless screen educts air efficiently for recharging the filter media
